Control	SUPERJOY HTTP-CGI Commands	s r3		MID 2021-10-22
Function	Command	Variable	Values	MID 2021-10-22 Comments
HDMI Output	http://[joystick lp]/cgi-bin/joyctrl.cgi?f=hdmiout&action=[action]	[joystick ip]	*joysticks current IP	
	Example: http://192.168.100.88/cgi-bin/joyctrl.cgi?f=hdmiout&action=on	[action]	on	Enables HDMI output
		[]	off	Disables HDMI output
			toggle	Toggles current HDMI output state
Custom Buttons	http://[joystick ip]/cgi-bin/joyctrl.cgi?f=custom&action=[action]&buttonid=[button id]	[joystick ip]	*joysticks current IP	
	Example: http://192.168.100.88/cgi-bin/joyctrl.cgi?f=custom&action=trigger&buttonid=1	[action]	trigger	
		[button id]	1	Triggers Custom Button 1 Functions
			2	Triggers Custom Button 2 Functions
			3	Triggers Custom Button 3 Functions
			4	Triggers Custom Button 4 Functions
Camera Selection &	http://[joystick ip]/cgi-bin/joyctrl.cgi?f=camselect&group=[group]&camid=[camera id]	[joystick ip]	*joysticks current IP	
HDMI Output Switching	Example: http://192_168.100.88/cgi-bin/joyctrl.cgi?f=camselect&group=2&camid=2	[group]	1	Selects Group 1
		[9:049]	2	Selects Group 2
			3	Selects Group 3
			4	Selects Group 4
			5	Selects Group 5 *Note, unique Camera ID Range
		[camera id]	1	Selects Camera 1 for Control & HDMI Output
		[camera id]	2	Selects Camera 2 for Control & HDMI Output
				Selects Camera 3 for Control & HDMI Output Selects Camera 3 for Control & HDMI Output
			3	
			4	Selects Camera 4 for Control & HDMI Output
			5	Selects Camera 5 for Control & HDMI Output
			6	Selects Camera 6 for Control & HDMI Output
			7	Selects Camera 7 for Control & HDMI Output
				Group 5 Only - Allows for use of Camera IDs 1 - 170
			170	End of Group 5 Camera ID Range
Direct Preset Recall	http://[joystick ip]/cgi-bin/joyctri.cgi?f=directpresets&action=[action]&group=[group]&camid=[camera id]&preset=[preset]&presetspeed=[preset speed]	[joystick ip]	*joysticks current IP	
	Example: http://192.168.100.88/cgi-bin/joyctri.cgi?f=directpresets&action=recall&group=1&camid=1&preset=1&presetspeed=24	[action]	recall	
		[group]	1	Selects Group 1
			2	Selects Group 2
			3	Selects Group 3
			4	Selects Group 4
			5	Selects Group 5 *Note, unique Camera ID Range
		[camera id]	1	Selects Camera 1 for Control & HDMI Output
			2	Selects Camera 2 for Control & HDMI Output
			3	Selects Camera 3 for Control & HDMI Output
			4	Selects Camera 4 for Control & HDMI Output
			5	Selects Camera 5 for Control & HDMI Output
			6	Selects Camera 6 for Control & HDMI Output
			7	Selects Camera 7 for Control & HDMI Output Group 5 Only - Allows for use of Camera IDs 1 - 170
			170	End of Group 5 Camera ID Range
		[preset]	0	Selects Preset 0 for Recall (Start of Preset Range)
			255	Selects Preset 255 for Recall (Start of Preset Range)
		[preset speed]	1	Selects a Preset Recall Speed of 1
			24	Selects a Preset Recall Speed of 24
			0	Selects the currently defined Preset Recall Speed
Current Preset Recall	and a first state of the state	[joystick ip]	*joysticks current IP	
	Example: http://192.168.100.88/cgi-bin/joyctrl.cgi?f=presets&action=recall&preset=1&presetspeed=1	[action]	recall	Recalls a preset on whatever camera ID is currently selected
		[preset]	0	Beginning of Preset Range
				End of Preset Range
			255	
		[preset speed]	255	Selects a Preset Recall Speed of 1
		[preset speed]		
		[preset speed]	1	Selects a Preset Recall Speed of 1
		[preset speed]		Selects a Preset Recall Speed of 1 Selects a Preset Recall Speed of 24
Inquiry		[preset speed]	1  24	Selects a Preset Recall Speed of 1
Inquiry Function	Command		1  24 0	Selects a Preset Recall Speed of 1 Selects a Preset Recall Speed of 24 Selects the currently defined Preset Recall Speed
Function Joystick Status	Command	Variable	1  24 0 Values	Selects a Preset Recall Speed of 1 Selects a Preset Recall Speed of 24
Function	http://[joystick ip]/cgl-bin/joyctrl.cgi?f=inquiry&action=[action]	Variable [joystick ip]	1  24 0 <b>Values</b> *joysticks current IP	Selects a Preset Recall Speed of 1 Selects a Preset Recall Speed of 24 Selects the currently defined Preset Recall Speed
Function Joystick Status		Variable [joystick ip] [action]	1  24 0 <b>Values</b> *joysticks current IP status	Selects a Preset Recall Speed of 1 Selects a Preset Recall Speed of 24 Selects the currently defined Preset Recall Speed Comments
Function Joystick Status	http://[joystick ip]/cgl-bin/joyctrl.cgi?f=inquiry&action=[action]	Variable [joystick ip]	1  24 0 Values *joysticks current IP status 1	Selects a Preset Recall Speed of 1 Selects a Preset Recall Speed of 24 Selects the currently defined Preset Recall Speed Comments Reporting Group 1 is currently selected
Function Joystick Status	http://[joystick.lp]/cgi-bin/joyctri.cgi?f=inquiry&action=[action] Example: http://192.168.100.88/cgi-bin/joyctri.cgi?f=inquiry&action=status	Variable [joystick ip] [action]	1  24 0 Values *joysticks current IP status 1 1 2	Selects a Preset Recall Speed of 1 Selects a Preset Recall Speed of 24 Selects the currently defined Preset Recall Speed Comments Reporting Group 1 is currently selected Reporting Group 2 is currently selected
Function Joystick Status	http://[joystick ip/lcgi-bin/joyctri.cgi?f=inquiry&action=[action] Example: http://192.168.100.88/cgi-bin/joyctri.cgi?f=inquiry&action=status response example(json format): {	Variable [joystick ip] [action]	1  24 0 Values *joysticks current IP status 1 2 3	Selects a Preset Recall Speed of 1 Selects a Preset Recall Speed of 24 Selects the currently defined Preset Recall Speed Comments Reporting Group 1 is currently selected Reporting Group 2 is currently selected Reporting Group 3 is currently selected
Function Joystick Status	http://jOystick.ip/cgi-bin/joyctri.cgi?f=inquiry&action=faction] Example: http://192.168.100.88/cgi-bin/joyctri.cgi?f=inquiry&action=status example: [son format]: { group.xx, }	Variable [joystick ip] [action]	1  24 0 Values *joysticks current IP status 1 2 3 4	Selects a Preset Recall Speed of 1 Selects a Preset Recall Speed of 24 Selects the currently defined Preset Recall Speed Comments Reporting Group 1 is currently selected Reporting Group 2 is currently selected Reporting Group 4 is currently selected Reporting Group 4 is currently selected Reporting Group 4 is currently selected
Function Joystick Status	http://[joystick ip/lcgi-bin/joyctri.cgi?f=inquiry&action=[action] Example: http://192.168.100.88/cgi-bin/joyctri.cgi?f=inquiry&action=status  response example(json format): { group.xx, camid.xx, }	Variable [Joystick ip] [action] [group]	1  24 0 *joysticks current IP status 1 2 3 4 5	Selects a Preset Recall Speed of 1 Selects a Preset Recall Speed of 24 Selects the currently defined Preset Recall Speed Comments Reporting Group 1 is currently selected Reporting Group 2 is currently selected Reporting Group 3 is currently selected Reporting Group 5 is currently selected
Function Joystick Status	http://jOystick.ip/cgi-bin/joyctri.cgi?f=inquiry&action=faction] Example: http://192.168.100.88/cgi-bin/joyctri.cgi?f=inquiry&action=status example: [son format]: { group.xx, }	Variable [joystick ip] [action]	1  24 0 Values *joysticks current IP status 1 2 3 4 5 1	Selects a Preset Recall Speed of 1 Selects a Preset Recall Speed of 24 Selects the currently defined Preset Recall Speed Comments Reporting Group 1 is currently selected Reporting Group 2 is currently selected Reporting Group 3 is currently selected Reporting Group 4 is currently selected Reporting Group 4 is currently selected Reporting Group 5 is currently selec
Function Joystick Status	http://[joystick.lp/cgi-bin/joyetri.cgi?f=inquiry&action=faction] Example: http://i92.168.100.88/cgi-bin/joyetri.cgi?f=inquiry&action=status example: http://i92.168.100.88/cgi-bin/joyetri.cgi?f=inquiry&action=status example: http://i92.168.100.88/cgi-bin/joyetri.cgi?f=inquiry&action=status example: http://igi.cgi.cgi.cgi.cgi.cgi.cgi.cgi.cgi.cgi.	Variable [Joystick ip] [action] [group]	1 24 0 "joysticks current IP status 1 2 3 4 5 5 1 1 2	Selects a Preset Recall Speed of 1 Selects a Preset Recall Speed of 24 Selects the currently defined Preset Recall Speed Comments  Reporting Group 1 is currently selected Reporting Group 2 is currently selected Reporting Group 4 is currently selected Reporting Group 4 is currently selected Reporting Group 5 is currently selected for Control and HDMI output Reporting Camera 2 is currently selected for Control and HDMI output
